REST A BIT RESPITE

SENIOR CAREGIVER PROGRAM

A PROGRAM OF HD SUPPORT & CARE NETWORK INC AND
MATCHING FUNDS FROM GIVE65

JULY 10-12, 2018 GIVE65 FUNDRAISING CAMPAIGN TO BENEFIT SENIOR CAREGIVERS

This program is designed to serve our senior caregivers. As HD is a dominant gene specific disease, multiple generations within one family may be affected. In many cases the senior caregivers are taking care of their spouse, their adult children, and ultimately their grandchildren. This program will provide much needed respite for our senior caregivers who have spent their entire adult lives caregiving others. The number of senior caregivers who may be served will depend on the final net dollars that come in on this campaign.

HDSCN wishes to thank GIVE65 for this amazing opportunity to serve our incredible senior caregivers with matching funds for a respite program. 100% net proceeds from this campaign will go towards several grants to give senior caregivers 'Rest A Bit Respite'. Once funding is secured, HDSCN will open up the application process. Senior caregivers need only apply.

For more information contact: Melissa Biliardi, 805-354-0708. Or, go to <https://www.give65.org/RestABitRespite> and donate. It's for a very worthy cause.
